PANDI NEWSLETTER (OCTOBER - DECEMBER 2023)

PERMINTAAN MASUKAN ATAS PENGEMBANGAN KEBIJAKAN NAMA DOMAIN

Nama Domain .id sebagai Nama Domain berkode negara Indonesia, merupakan satu-satunya Nama Domain yang dikelola oleh Registri yang berbadan hukum Indonesia untuk merepresentasikan identitas digital nasional. Oleh karenanya, PANDI sebagai Registri Nama Domain .id memiliki salah satu misi untuk “mengembangkan tata kelola pengelolaan nama domain Indonesia dengan melibatkan publik, dan pemerintah secara transparan dan akuntabel”.

Guna mengembangkan tata kelola pengelolaan Nama Domain Indonesia yang baik, pengembangan Kebijakan Nama Domain sebagai instrumen kunci tata kelola Nama Domain memerlukan partisipasi publik yang berkesinambungan. Hal ini sekaligus merupakan pelaksanaan PANDI atas penormaan dalam Peraturan Menteri Komunikasi dan Informatika Republik Indonesia Nomor 23 Tahun 2013 tentang Pengelolaan Nama Domain (Permenkominfo 23/2013) dan Surat Keputusan Menteri Komunikasi dan Informatika Nomor 218 Tahun 2023 tentang Penetapan Perkumpulan Pengelola Nama Domain Internet Indonesia (PANDI) Sebagai Registri Nama Domain Indonesia (SK Menkominfo 218/2023) yang mengatur bahwa PANDI sebagai Registri memiliki salah satu kewajiban/tugas untuk merumuskan kebijakan terkait Nama Domain Indonesia.

Partisipasi publik menjadi indikator penting dalam menghasilkan Kebijakan Nama Domain yang baik, karena hakikatnya publik yang paling berkepentingan dalam melaksanakan dan mendapatkan keselarasan manfaat atas berlakunya suatu Kebijakan.

Mari berpartisipasi dalam pengembangan Kebijakan Nama Domain Indonesia. Sampaikan masukan anda terkait Kebijakan Nama Domain Indonesia melalui alamat email kebijakan@pandi.id atau borang <https://s.id/masukanpublik>.

REQUEST FOR INPUT ON THE DEVELOPMENT OF DOMAIN NAME POLICY

.id Domain Name as a Domain Name with Indonesia country code, is the only Domain Name managed by a Registry which is an Indonesian legal entity to represent national digital identity. Therefore, PANDI as the .id Domain Name Registry has one mission to “develop the governance of Indonesian domain name management by involving the public and government in a transparent and accountable manner”.

In order to develop good Indonesian Domain Name management governance, the development of a Domain Name Policy as a key instrument for Domain Name governance requires continuous public participation. This is also PANDI's implementation of the norms in the Regulation of the Minister of Communication and Informatics of the Republic of Indonesia Number 23 of 2013 concerning Domain Name Management (Minister of Communication and Informatics Regulation No. 23/2013) and the Decree of the Minister of Communication and Informatics Number 218 of 2023 concerning the Determination of Indonesia Internet Domain Name Registry (PANDI) as Indonesian Domain Name Registry (Minister of Communication and Informatics Decree No. 218/2023) which regulates that PANDI as a Registry has one of the obligations/tasks to formulate policies regarding Indonesian Domain Names.

Public participation is an important indicator in producing a good Domain Name Policy, because in essence, public has the most interest in implementing and obtaining harmonious benefits from the enactment of a Policy.

Let's participate in the development of the Indonesian Domain Name Policy. Submit your input regarding the Indonesian Domain Name Policy through email address policy@pandi.id or the form <https://s.id/masukanpublik>.
